DETAILED ACTION

Election/Restrictions

Claims 1 and 10 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species I to III is hereby withdrawn and claims 3-5, directed to the species of II and III no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 7-9, directed to the species of IV remain withdrawn from consideration since it does not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Applicant's election without traverse of Species I in Paper filed April 21, 2003 is acknowledged.
